

DC1 Kit - 300 mm dosing pump

Product sheet

Wasting detergents is not only harsh on the environment, it also costs a pretty penny. With the prize-winning Dosing Care dispensers you choose for an environmentally friendly, safe and competitively priced dispenser. The DC1 Kit is a simple dosing pump that allows you to easily dose the detergents straight from the packaging into the sink. Essential here is the of-the-floor hanging system to keep the detergent of the floor in a hygienic and orderly manner. The pump is fitted with a 300 mm long aluminium extension that can be turned, allowing you to easily switch between two sinks. If you want to stop wasting detergents you opt for the Dosing Care DC1 Kit - 300 mm Dosing Pump. Request a quote here.†
