

Drip tray 1000 ml, SH T 26 - ingo-man version

In a clean and hygienic environment, soap residue catches the eye. For your guests, this can be an unpleasant confrontation. The MediQo-line drip tray prevents this. The size of this drip tray is specially adjusted to the 1000ml-soap dispenser. You attach the drip tray by sliding the stainless steel tray on top of the soap dispenser. As a result, the tray comes directly under the opening of the soap dispenser. It is easy to remove the drip tray from the holder, so that cleaning is no problem. Do you like to prevent soap residue on your countertop or sink? Ask now for the quote.
