

Facial tissue dispenser stainless steel

With a cold virus into the air everyone seems to snivel. It is, therefore, handy if there are enough tissues in stock for a hygienic freshening up of your guests and employees. With the Mediclinics stainless steel facial tissue dispenser you are assured of a good supply of tissues.

The Mediclinics facial tissue dispenser is not only beautiful, but also ensures optimal hygienic use.† No more fingerprints because of the specially made anti-fingerprint coating. Moreover, the dispenser is very easy to use. The tissues lie clearly visible on the surface, and can, therefore, be drawn from the dispenser with one move.

Is there a cold virus in the air? The Mediclinics stainless steel facial tissue dispenser always has plenty of...
