

Foam soap dispenser automatic 1000 ml stainless steel

Would you like your guests to experience the comfort of foam soap combined with hygiene and convenience? Then continue reading. Foam gives a sensation of luxury, especially when combined with automatics. With this dispenser, the user only has to activate the sensor to receive a dab of foam on their hands. Foam gives visitors the sensation that they have a lot of soft-feeling soap on their hands, giving them a moment of pleasure. The stainless steel material makes this a robust dispenser that gives your sanitary facilities a cool look. As far as hygiene is concerned, this dispenser is in good shape. Thanks to the infra-red sensor, contact with the dispenser is not necessary - ensuring optimal hygiene. The front viewing window makes checking the content quick and easy. Would you like to offer your guests comfort and decorate your sanitary facilities tastefully at the same time? Request a quote!
