

Foam soap dispenser automatic 1200 ml refillable plastic

Improve the hygiene in your wash room with this touch-free solution!

With this foam soap dispenser from our PlastiQline range, its no longer necessary to touch the dispenser. Thanks to a sensor the soap will be dosed automatically, by holding your hands under the dispenser. Personalize your dispenser by printing your logo (from 10 pieces) or by choosing the colour of the window (they come as standard with a grey window).

Go for optimal hygiene in combined with convenience.†
