

Glove dispenser DUO aluminium

Product sheet

In medical emergency situations latex gloves are one of the first requirements. The MediQo-line duo glove dispenser ensures an efficient and simple dispenser of medical gloves. This MediQo-line duo glove dispenser consists of two parts, which are connected to a so-called back plate. Each section provides space for a separate glove box. The supply boxes are held in place by a resilient clip, which is pushed through the back of the box. Are you ready for medical emergencies? Now ask the quote for the glove dispenser duo aluminium MQDGDA MediQo line.
