

# Hand towel dispenser small aluminium, HS 15 A - ingo-man version

Looking for a line where design and functionality go together? Then, undoubtedly, you'll want the MediQo line. In this line both style and user friendliness play a major role. A typical example is this hand towel dispenser. The sturdy aluminum cover makes sure ensures that the dispenser immediately catches the eye in your washroom. Through the level control window, you always have a view of the level of the hand towels. And do you quickly want to replenish the towels? Then unfolding the cover is sufficient. A matter of good taste and an eye for style, this towel dispenser. Request the quote.
