

Hand towel dispenser small plastic black

Why would you stock more hand towels than necessary in your washroom? On the basis of the number of visits to the toilet it is easy to figure out what the usage is. With less intensively used toilets the PlastiQline small plastic hand towel dispenser is a solution to size. You can fill this hand towel dispenser with a 20 cm stack of folded C- or Z hand towels. You do this, simply, by opening the cover with the special key supplied (also to be used with the other PlastiQline dispensers). Easy as it is to replenish as easy the users take a towel. When you choose functionality and quality, this small PlastiQline hand towel dispenser is an attractive solution. Ask for a quote!
