

# Soap dispenser 400 ml refillable plastic black

When designing the PlastiQline washroom accessories, we always look for the balance between form and function. With their drop on the front and round lines the soap dispensers look representative. But they are also extremely functional.

This soap dispenser is suitable for almost a liter of detergent. Which detergent is your choice: alcohol gel, liquid soap, lotions or cream. That flexibility is equally characteristic of the PlastiQline soap dispensers as the drop. And that is appreciated by thousands of users every day.

Do you like to offer your visitors to the washroom the convenience of this plastic soap dispenser? Get a Quote!
