

# Spray dispenser 1500 ml stainless steel

Good hygiene is crucial. Particularly in those areas that are highly frequented by guests. This makes the choice of a Mediclinics alcohol spray dispenser self-evident. You may select this spray dispenser for its practical use, but don't forget that the design must also meet the highest of demands. Which is something the designers of this dispenser understood all but too well. The taut-lined stainless steel housing with its angular corners is a great addition to each tastefully decorated sanitary area. With a push of the stainless steel push button, your guest will obtain the exact amount of alcohol required to optimally disinfect their hands or the toilet seat. Via the top of the dispenser you can easily replace the refill bottle. Do you want your sanitary area to meet the highest demands in design? Then the stainless steel Mediclinics 1500 ML Spray Dispenser would be the right choice!
