

# Spray dispenser automatic 1000 ml stainless steel white

The new automatic stainless steel white Mediclinics spray dispenser is highly suitable for hand alcohol disinfection. This spray dispenser not only excels where hygiene and practical use are concerned, its robust white appearance is quite appealing as well! It will ensure that your sanitary area meets the highest demands while simultaneously giving your interior a luxurious look. The spray mechanism makes for smooth and easy use thanks to the built-in infrared sensor ensuring the correct quantity needed, time and time again. You can easily and quickly assess and check the filling via the front viewing pane, which means that you don't have to touch the dispenser. If that isn't hygienic, what is? The refill bottle (1,000 ml) can be easily replaced via the top of the dispenser. You can mount the spray dispenser on any wall, at a recommended height of 25 to 30 cm above the counter top....
