

Sanitary bag dispenser stainless steel white (plastic & paper)

A washroom requires more than enough toilet paper and a handy waste bin. That certainly applies to the ladies washroom. Besides the necessary freshening up accessories a handy sanitary bag holder is indispensable.

The Dutch Bins sanitary bag holder not only catches the eye because of its subtlety, but also by the immaculately white color. The design is completely suited to a clean and tastefully decorated washroom. The round hole at the front end offers exactly enough space for removing the bags. This way the bags can be hidden in a delicate way from view of your female guests. The sanitary bag holder is suitable for both paper and plastic sanitary bags.

Do you want to meet the needs of your female...
