

Sanitary bin 8 litre

Product sheet

Your female guests simply love comfort. Particularly when visiting the sanitary facilities. This is why a stylish hygiene sanitary bin should always be part of a female toilet area.

The content of this PlastiQLine Hygiene Sanitary Bin is no less than 8 litres. A content, by the way, that is discretely packed away under the closed access flap. After use, the flap automatically returns to its original position to keep the waste hidden from your other guests.

Would this stylish, black hygiene sanitary bin also do well in your sanitary areas? Then request a quote!
