

Wall grab bar - left version stainless steel

Does the quality of the MediQo-line grab bars appeal to you? Ask now the quote for the stainless steel grab bar for wall mounting. Accidents will happen. Fortunately solutions too. With the MediQo-line grab bar you offer your disabled visitors an optimal comfort experience during their visit to the toilet. For the layout of a disabled toilet or less-abled toilet special requirements apply. One is the installation of sufficient grab bars. This way you enable an independent visit to the toilet for your visitor or client. This MediQo-line grab bar has especially been developed for use in a small room. The grab bar can be mounted in any corner. This is very convenient for your disabled visitor.
