

Waste bin 120 litre stainless steel

Product sheet

You wish to keep the waste under control in your business. You prevent a mess that way. Therefore, it is especially important during peak times that your bins have sufficient capacity to collect the waste.† With this 120 liter double wall waste bin, your guests are never faced with an overflowing bin.

This double wall waste bin particularly attracts attention on account of its large capacity. It is a bin with foot operation, and is easy to move around because of wheels. The sleek stainless steel exterior of the bag holder has a special anti-fingerprint coating. This prevents unhygienic stains and fingerprints on the bin.

No more bag replacements between times? Ask now for the quote!
