

Waste bin 15 litre white, AB 15 P - ingo-man version

Waste bins have much to endure in public places. However, a waste bin that is able to deal with it, is a MediQo-line bin. This prevents unwanted trash and so the room will look a clean and tidy.

What strikes one most is the lining of this strong stainless steel bin. The robust finish resists unwanted kicks and hits. But functionality is also a key issue. The bin has a special swing lid, which keeps the waste discreetly out of sight from the passerby. The bin hangs on the special wall plate, which is mounted on the wall by a solid four-point assembling plate.
