

Waste bin closed 9 litre

Product sheet

That is things nice and tidy again for waste, such as used tissues. Especially when you install a closed waste bin so that visitors do not see the rubbish.

Such a closed container is the stainless steel Qbic-line waste bin with a capacity of 9 litre. A simple bin that takes up relatively little space. Users can deposit their waste via the swing lid, which then automatically closes. A comfortable solution.

Decorate tyour washroom with the cubic Qbic-line accessories, such as this bin. Request a quote!
